## READING WELL BOOKLIST

Parents may be interested to know about a book list developed by charity The Reading Agency in partnership with Libraries Connected and the UK public library network. Reading Well is a national books on prescription programme that provides helpful reading to support health and wellbeing. The scheme is developed and endorsed by leading health partners and delivered in public libraries. Since its launch, the scheme has supported 1.2 million people to borrow 2.3 million books. The initiative has been endorsed by the public as well as by GPs, mental health professionals and government ministers as a helpful community-based health service. It has also delivered significant benefit; in a recent survey, 90% of young people would recommend their Reading Well book to a friend for support.

Reading Well for children is a new booklist (there is an adult list too) of expert endorsed reading to support mental health and wellbeing. The list is aimed at children in Key Stage 2 but includes titles for a wide range of reading levels to support less confident readers, and to encourage children to read together with their siblings and parents/carers.

The books will be available on the open shelves of the local public library for anyone to borrow.

The booklist of 33 titles provides quality assured information, advice and stories to support children's mental health and wellbeing and covers general information and advice. Advice includes maintaining good mental health and wellbeing, understanding and managing feelings, dealing with worries, navigating the world around you, including at school, online and in the news, dealing with tough times, including when someone dies, trauma, and when a parent or carer has mental health needs and support for living well with specific diagnosed conditions including Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), Obsessive Compulsive Disorder (OCD) and physical disabilities.
